- 1200 ANSI Lumens
- 6.5 Pounds
- Digital Keystone Adjustment
- Picture-In-Picture
- 600:1 Contrast Ratio
- SVGA 800 x 600
- 600 Viewable Video Lines
- HDTV-Ready

The SL2 ColorView projector from Mitsubishi offers versatile features making it an ideal projector for basic office or entry-level home theater use. It comes packed with 1200 ANSI lumens of brightness with a remarkable 600:1 contrast ratio. And at 800 x 600 resolution and 600 video lines, along with the industry-leading three-year warranty, it takes on any presentation, video games or movies with an unmatched price performance value.

- Exclusive, award-winning ColorView Natural Color Matrix for rich, vivid colors
- sRGB color profile technology ensures standard uniform color reproduction regardless of the type of display used
- 3D CineView™, Mitsubishi's proprietary video technology, significantly reduces flickering, artifacts, crawling, or blinking, with the image as sharp and smooth as its native film format
- Fully compatible with Mitsubishi's ProjectorView™ Networking system which enables a company's designated administrator and authorized users to remotely control, monitor, manage, and even diagnose a Mitsubishi projector
- Remarkable 600:1 contrast ratio for rich, deep colors great for home video viewing
- Versatile enough to support one computer and two inputs simultaneously
- Three-year parts and labor warranty and 90-day warranty on the lamp (both warranties available in U.S. and Canada), toll-free technical support, plus two-year Express Replacement Assistance (ERA) program that guarantees free replacement product shipped overnight for next business day delivery when and where available

REVOLUTIONIZINGCOLOR™

COLORVIEW™ NATURAL COLOR MATRIX

The SL2 produces vivid colors that precisely match their real-life counterparts, as well as giving you the ability to precisely adjust color saturation and control color tones.

Without ColorView

With ColorView

PRECISE COLOR REPRODUCTION WITH sRGB

Developed to ensure standard, uniform color reproduction regardless of the type of display used, sRGB color profile uses color coordinates common to all display technologies.

IRIS® (INTELLIGENT ROOM ILLUMINATION SENSOR)

Room illumination can have a significant effect on the quality and accuracy of color reproduction on-screen. The brighter the room, the duller the color. The SL2's built-in IRIS® automatically detects light volume and color density, automatically adjusting mid-range color tones as required for optimal color reproduction under any lighting conditions.

A change in external light makes the room brighter.
